## Introduction Where Opportunity Meets Talent®

The TriMetrix® HD Coaching Report was designed to increase the understanding of an individual's talents. The report provides insight to four distinct areas: behaviors, motivators, acumen and competencies. Understanding strengths and weaknesses in each of the four areas will lead to personal and professional development and a higher level of satisfaction.

**The following is an in-depth look at your personal talents in the four main sections:**

### Behaviors

This section of the report is designed to help you attain a greater knowledge of yourself as well as others. The ability to interact effectively with people may be the difference between success and failure in your work and personal life. Effective interaction starts with an accurate perception of oneself.

### Motivators

This section of the report provides information on the why of your actions, which with application and coaching, can tremendously impact your valuing of life. Once you know the motivations that drive your actions, you will immediately be able to understand the causes of conflict.

### Integrating Behaviors And Motivators

This section of the report will help you blend the how and the why of your actions. Once you can understand how your behaviors and motivators blend together, your performance will be enhanced and you will experience an increase in satisfaction.

### Acumen Indicators

This section of the report will help you truly understand how you analyze and interpret your experiences. Your acumen, keenness and depth of perception or discernment, is directly related to your level of performance.

### Competencies

This section presents 25 key competencies and ranks them from top to bottom, defining your major strengths. The skills at the top highlight well-developed capabilities and reveal where you are naturally most effective in focusing your time.

## Introduction Behaviors Section

**Behavioral research suggests that the most effective people are those who understand themselves, both their strengths and weaknesses, so they can develop strategies to meet the demands of their environment.**

A person's behavior is a necessary and integral part of who they are. In other words, much of our behavior comes from "nature" (inherent), and much comes from "nurture" (our upbringing). It is the universal language of "how we act," or our observable human behavior.

**In this report we are measuring four dimensions of normal behavior. They are:**

- How you respond to problems and challenges.
- How you influence others to your point of view.
- How you respond to the pace of the environment.
- How you respond to rules and procedures set by others.

This report analyzes behavioral style; that is, a person's manner of doing things. Is the report 100% true? Yes, no and maybe. We are only measuring behavior. We only report statements from areas of behavior in which tendencies are shown. To improve accuracy, feel free to make notes or edit the report regarding any statement from the report that may or may not apply, but only after checking with friends or colleagues to see if they agree.

*"All people exhibit all four behavioral factors in varying degrees of intensity."  
—W.M. Marston*

# Communication Tips

*This section provides suggestions on methods which will improve Mitch's communications with others. The tips include a brief description of typical people with whom he may interact. By adapting to the communication style desired by other people, Mitch will become more effective in his communications with them. He may have to practice some flexibility in varying his communication style with others who may be different from himself. This flexibility and the ability to interpret the needs of others is the mark of a superior communicator.*

## **When communicating with a person who is dependent, neat, conservative, perfectionist, careful and compliant:**

- Prepare your "case" in advance.
- Stick to business.
- Be accurate and realistic.

### **Factors that will create tension or dissatisfaction:**

- Being giddy, casual, informal, loud.
- Pushing too hard or being unrealistic with deadlines.
- Being disorganized or messy.

## **When communicating with a person who is ambitious, forceful, decisive, strong-willed, independent and goal-oriented:**

- Be clear, specific, brief and to the point.
- Stick to business.
- Be prepared with support material in a well-organized "package."

### **Factors that will create tension or dissatisfaction:**

- Talking about things that are not relevant to the issue.
- Leaving loopholes or cloudy issues.
- Appearing disorganized.

## **When communicating with a person who is patient, predictable, reliable, steady, relaxed and modest:**

- Begin with a personal comment--break the ice.
- Present your case softly, nonthreateningly.
- Ask "how?" questions to draw their opinions.

### **Factors that will create tension or dissatisfaction:**

- Rushing headlong into business.
- Being domineering or demanding.
- Forcing them to respond quickly to your objectives.

## **When communicating with a person who is magnetic, enthusiastic, friendly, demonstrative and political:**

- Provide a warm and friendly environment.
- Don't deal with a lot of details (put them in writing).
- Ask "feeling" questions to draw their opinions or comments.

### **Factors that will create tension or dissatisfaction:**

- Being curt, cold or tight-lipped.
- Controlling the conversation.
- Driving on facts and figures, alternatives, abstractions.

# Descriptors

Based on Mitch's responses, the report has marked those words that describe his personal behavior. They describe how he solves problems and meets challenges, influences people, responds to the pace of the environment and how he responds to rules and procedures set by others.

## The Success Insights® Wheel

The Success Insights® Wheel is a powerful tool popularized in Europe. In addition to the text you have received about your behavioral style, the Wheel adds a visual representation that allows you to:

- View your natural behavioral style (circle).
- View your adapted behavioral style (star).
- Note the degree you are adapting your behavior.
- If you filled out the Work Environment Analysis, view the relationship of your behavior to your job.

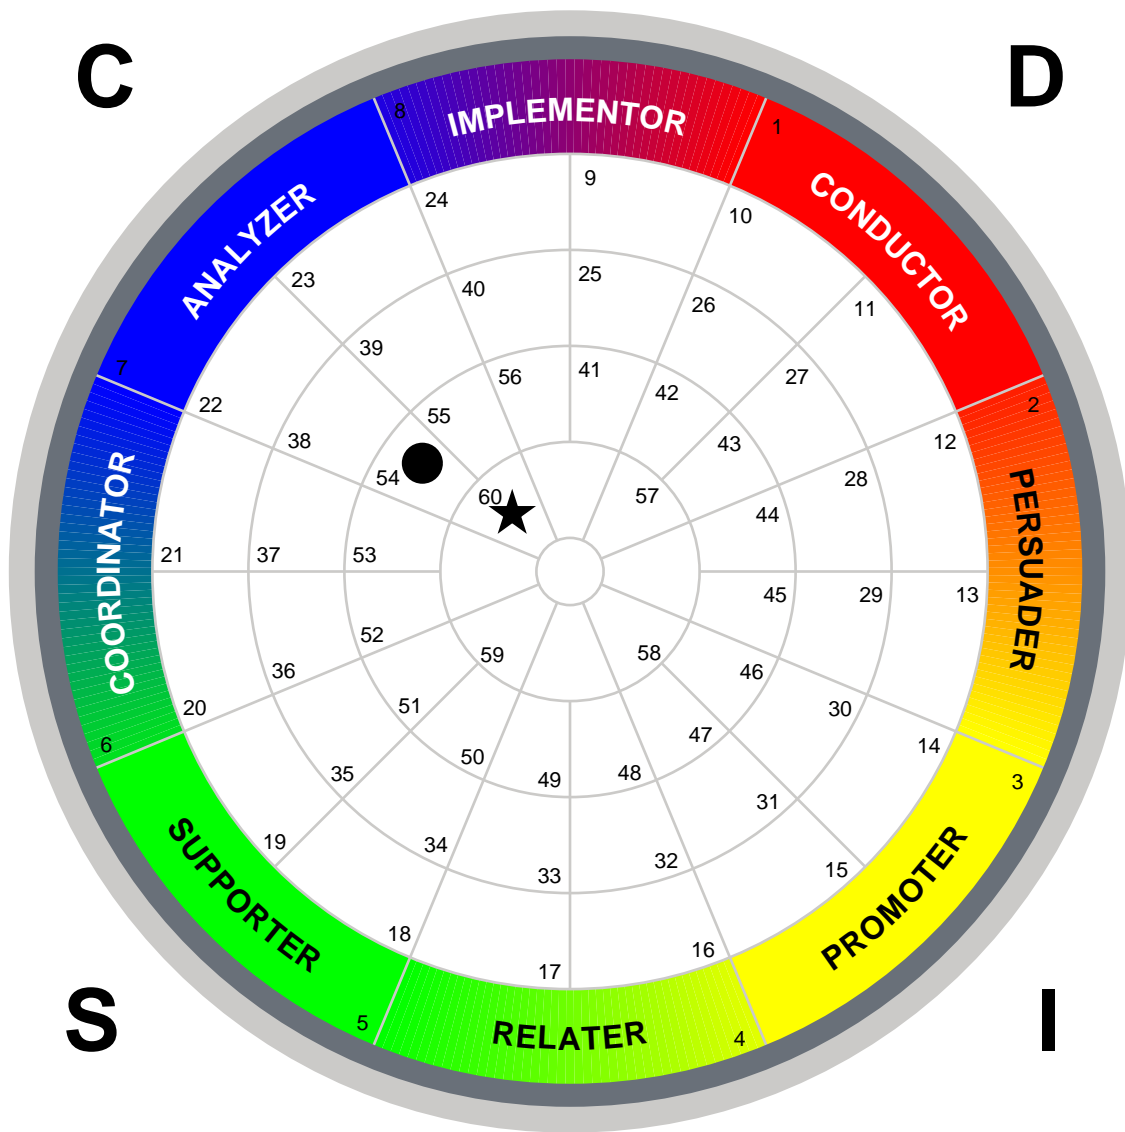

Notice on the next page that your Natural style (circle) and your Adapted style (star) are plotted on the Wheel. If they are plotted in different boxes, then you are adapting your behavior. The further the two plotting points are from each other, the more you are adapting your behavior.

If you are part of a group or team who also took the behavioral assessment, it would be advantageous to get together, using each person's Wheel, and make a master Wheel that contains each person's Natural and Adapted style. This allows you to quickly see where conflict can occur. You will also be able to identify where communication, understanding and appreciation can be increased.

## Introduction Motivators Section

Knowledge of an individual's motivators help to tell us WHY they do things. A review of an individual's experiences, references, education and training help to tell us WHAT they can do. Behavioral assessments help to tell us HOW a person behaves and performs in the work environment. The Personal Motivators & Engagement report measures the relative prominence of six basic interests or motivators (a way of valuing life): Theoretical, Utilitarian, Aesthetic, Social, Individualistic and Traditional.

Motivators help to initiate one's behavior and are sometimes called the hidden motivators because they are not always readily observed. It is the purpose of this report to help illuminate and amplify some of those motivating factors and to build on the strengths that each person brings to the work environment.

Based on your choices, this report ranks your relative passion for each of the six motivators. Your top two and sometimes three motivators cause you to move into action. You will feel positive when talking, listening or doing activities that satisfy your top motivators.

The feedback you will receive in this section will reflect one of three intensity levels for each of the six motivators.

- **Strong** - positive feelings that you need to satisfy either on or off the job.
- **Situational** - where your feelings will range from positive to indifferent based on other priorities in your life at the time. These motivators tend to become more important as your top motivators are satisfied.
- **Indifferent** - your feelings will be indifferent when related to your 5th or 6th motivator.

Your Personal Motivators Ranking		
1st	Theoretical	<b>Strong</b>
2nd	Social	<b>Strong</b>
3rd	Individualistic	<b>Situational</b>
4th	Utilitarian	<b>Situational</b>
5th	Traditional	<b>Indifferent</b>
6th	Aesthetic	<b>Indifferent</b>

# Motivators - Norms & Comparisons

For years you have heard statements like, "Different strokes for different folks," "to each his own," and "people do things for their own reasons, not yours." When you are surrounded by people who share similar motivators, you will fit in with the group and be energized. However, when surrounded by people whose motivators are significantly different from yours, you may be perceived as out of the mainstream. These differences can induce stress or conflict. **When confronted with this type of situation you can:**

- Change the situation.
- Change your perception of the situation.
- Leave the situation.
- Cope with the situation.

**This section reveals areas where your motivators may be outside the mainstream and could lead to conflict.** The further away you are from the mainstream on the high side, the more people will notice your passion about that motivator. The further away from the mainstream on the low side, the more people will view you as indifferent and possibly negative about that motivator. The shaded area for each motivator represents 68 percent of the population or scores that fall within one standard deviation above or below the national mean.

## Norms & Comparisons Table - Norm 2011

- 68 percent of the population    - national mean    - your score

**Mainstream** - one standard deviation of the national mean  
**Passionate** - two standard deviations above the national mean  
**Indifferent** - two standard deviations below the national mean  
**Extreme** - three standard deviations from the national mean

## Motivators - Norms & Comparisons

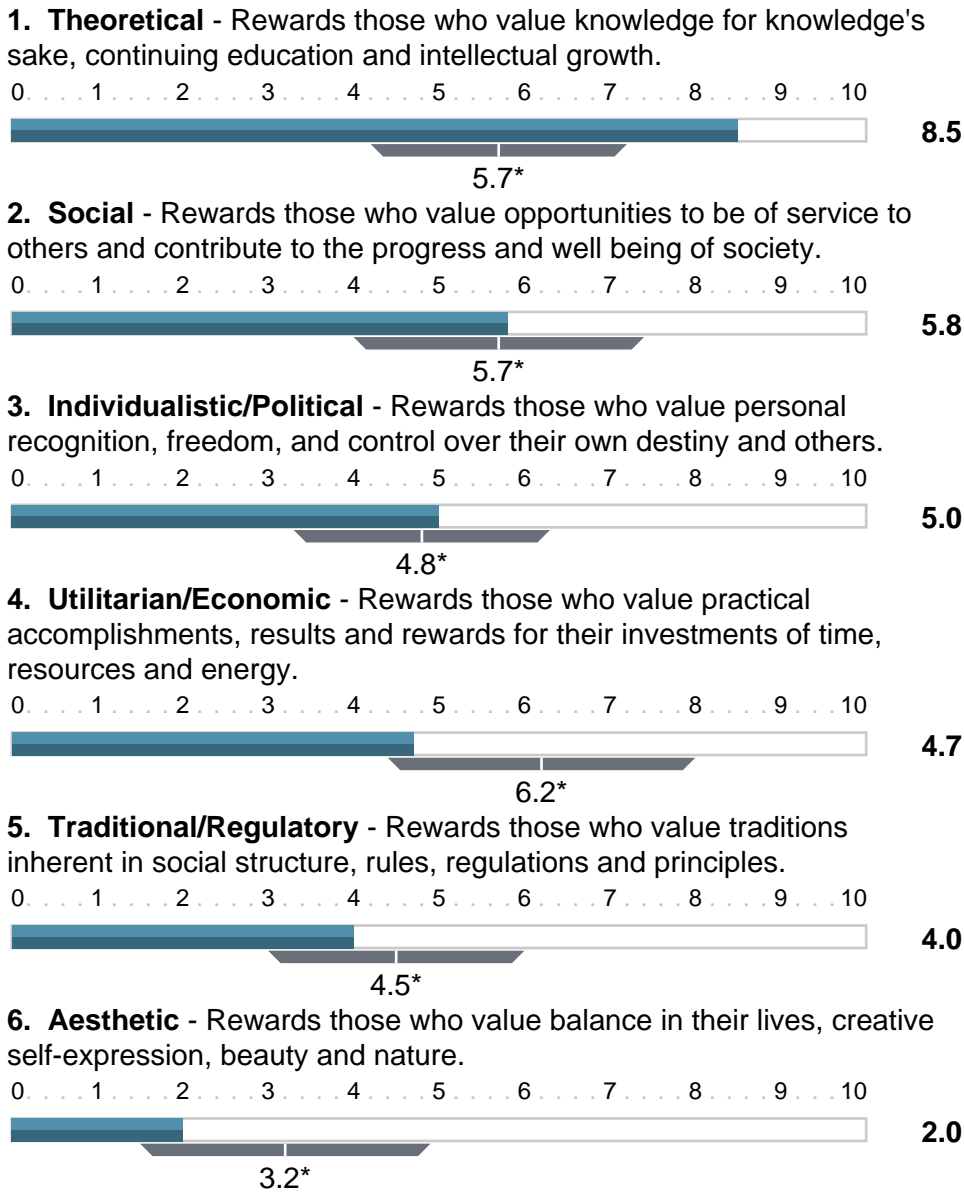

Areas in which you have strong feelings or passions compared to others:

- You have an intense passion for learning new things, always searching for opportunities to advance your knowledge. Others may struggle with the amount of time and resources you are willing to invest to learn new things. They might think you should stop learning and start doing.

# Motivators Hierarchy

Your motivation to succeed in anything you do is determined by your underlying motivators. You will feel energized and successful at work when your job supports your personal motivators. They are listed below from the highest to the lowest.

## Introduction Integrating Behaviors and Motivators Section

The ultimate power behind increasing job satisfaction and performance comes from the blending of your behaviors and motivators. Each individually is powerful in order to modify your actions, but the synergy of blending the two moves you to a whole new level.

### In this section you will find:

- Potential Behavioral and Motivational Strengths
- Potential Behavioral and Motivational Conflict
- Ideal Environment
- Keys to Motivating
- Keys to Managing

# Potential Behavioral and Motivational Strengths

*This section describes the potential areas of strengths between Mitch's behavioral style and top two motivators. Identify two to three potential strengths that need to be maximized and rewarded in order to enhance on-the-job satisfaction.*

- His desire to learn more allows processes to become more effective.
- Detailed and compliant about the research process.
- Brings organization for those going for the same cause.
- Paints a very detailed picture for the benefit of others to follow.
- Will bring high energy and enthusiasm to the researching process.
- Motivates others to continue education.
- Great at generating excitement in others and getting people on board.
- Always willing to offer his time and perspective.

## Introduction Acumen Indicators Section

Research has shown that the most effective people are those who understand themselves, both their strengths and weaknesses, so they can develop strategies to meet the demands of their environment.

The Acumen Indicators Section is designed to help an individual truly understand themselves, how they analyze and interpret their experiences. A person's acumen, keenness and depth of perception or discernment, is directly related to their level of performance. The stronger a person's acumen, the more aware they are of their reality in both their external and internal world.

This section explores both how a person interacts with the external world and from a personal perspective. There are seven primary areas that this section will explore:

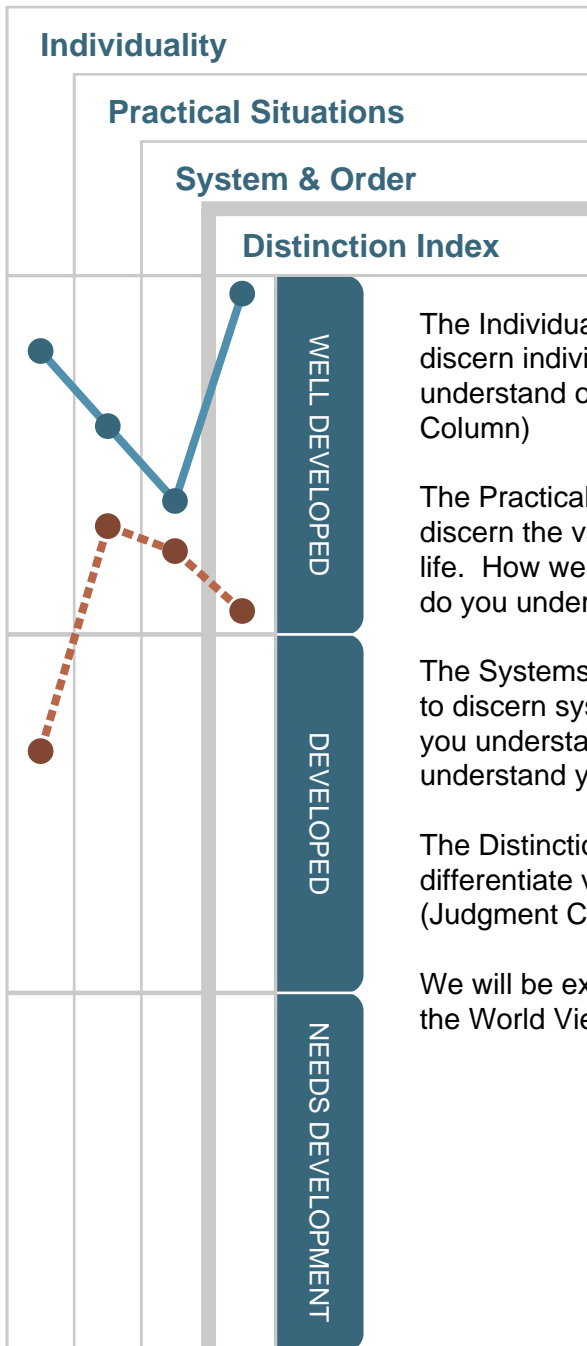

- Summary of Acumen Capacity
- World View General Characteristics
- Self View General Characteristics
- Clarity of Performance and Situational Awareness
- Capacity for Problem Solving
- Reaction Index
- Business Performance Summary

Be sure to read the entire section with an open mind. Everyone has areas where they can improve. Use the content of this section while working with your mentor, professional coach or manager in order to make improvements, both personally and professionally.

# Summary of Acumen Capacity

The Dimensions section measures Mitch's capacity to understand each of the dimensions individually as well as the capacity to differentiate the value elements in situations.

The Individuality column relates to the development of your capacity to discern individuality in others and individuality in oneself. How well do you understand others? How well developed is your sense of self? (Feeling Column)

The Practical Situations column relates to the development of your capacity to discern the value in situations in the outside world and in one's own roles in life. How well do you understand all aspects of practical situations? How well do you understand your roles in life? (Doing Column)

The Systems and Order column relates to the development of your capacity to discern systems and order in the world and within oneself. How well do you understand structure and organization in the world? How well do you understand your self-organization and future direction? (Thinking Column)

The Distinction Index Column relates to your development of the capacity to differentiate values in general in the world as well as within oneself. (Judgment Column)

We will be exploring this information in more detail over the next two pages in the World View and Self View sections.

**World View** **Self-View**

# Clarity of Performance and Situational Awareness

Clarity of Performance and Situational Awareness score both internally and externally. The Clarity of Performance measures a person's ability to see the relevant in situations, their capacity for focusing on, understanding and valuing the dimensions evenly in the outside world and within oneself. The Situational Awareness score is the measurement of Mitch's awareness of the reality of the outside world and within his own world.

**External Clarity of Performance:** Development of a *sense of proportion* in evaluating personal, practical and theoretical situations in the outside world.

- Mitch should do his best to remain objective in dealing with situations and issues of all kinds.
- Mitch lacks some sense of proportion in viewing the world, as he lacks some clarity in seeing the big picture.
- Mitch, on the whole, has an objective view of issues but should seek to evaluate them equally in terms of people, tasks and systems.

**External Situational Awareness:** Development of the awareness of the reality of the world.

- Mitch may have unrealistic expectations when it comes to people, tasks and systems.
- Mitch has difficulty seeing the "bigger picture."
- Mitch should seek to develop his overall understanding of situations and issues in his work environment.

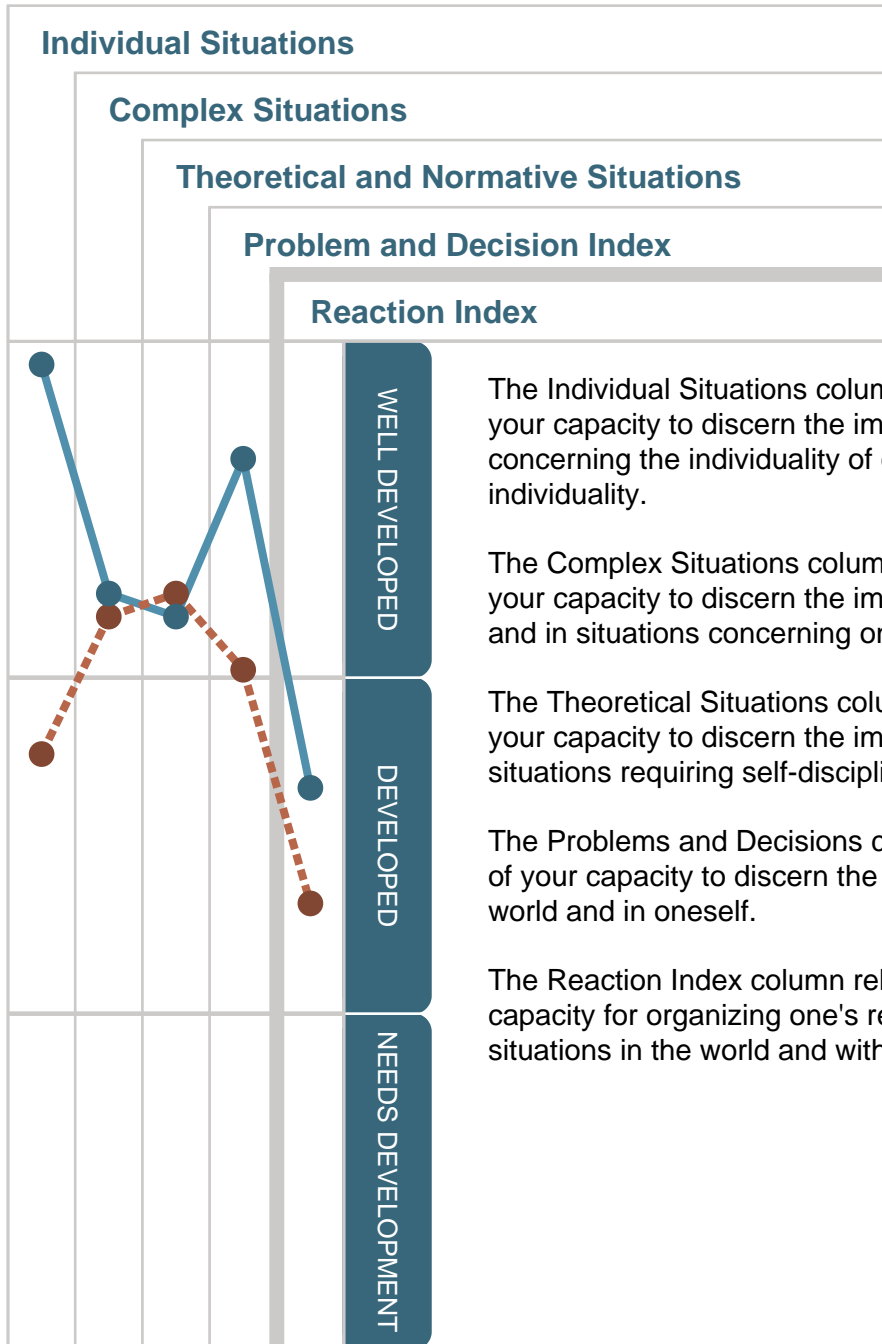

\* 68% of the population falls within the shaded area.

# Summary of Capacity for Problem Solving

The Individual Situations column relates to the development of your capacity to discern the importance within situations concerning the individuality of others and concerning one's own individuality.

The Complex Situations column relates to the development of your capacity to discern the importance within practical situations and in situations concerning one's own roles in life.

The Theoretical Situations column relates to the development of your capacity to discern the importance within systems and in situations requiring self-discipline.

The Problems and Decisions column relates to the development of your capacity to discern the importance within situations in the world and in oneself.

The Reaction Index column relates to the development of your capacity for organizing one's reactions when confronted with situations in the world and within oneself.

World View    Self-View

# Capacity for Problem Solving

The Problem Solving Summary will identify Mitch's capacity to solve problems and concentrate during challenging times and ability to make balanced decisions. Levels of development will be indicated by Well Developed, Developed or Needs Development as well as through a numerical score.

**Capacity for Solving Problems Involving People** - The ability to perceive the important within the complex in outside situations concerning the individuality of others and the ability to solve personal problems of others.

**Capacity for Solving Practical Problems** - The ability to perceive the important within the complex in outside situations in order to solve practical problems in the outside world.

**Capacity for Solving Theoretical Problems** - The ability to perceive the important within the complex in outside situations or systems in order to solve theoretical problems in the outside world.

**Capacity for Problem Solving and Decision Making in the Outside World** - The ability to perceive all relevant information needed within complex situations for the task at hand in order to make important decisions.

\* 68% of the population falls within the shaded area.

## Capacity for Problem Solving Continued

**Internal Problem Solving Ability** - The ability to perceive the important within the complex in situations that concern one's own individuality in order to solve one's own personal problems.

**Problem Solving Ability Within One's Roles** - The ability to perceive the important within the complex in situations which concern one's roles in order to resolve personal practical problems.

**Problem Solving Ability Regarding One's Future** - The ability to perceive the important within the complex in problems which require self-discipline and the ability to resolve theoretical personal problems.

**Capacity for Problem Solving and Decision Making Within One's Self** - The ability to perceive the important within the complex within one's self in order to resolve problems and to make personal decisions.

\* 68% of the population falls within the shaded area.

# Reaction Index

The Reaction Index is determined by looking at Mitch's External Control and Internal Control. The combination of this information will identify one's capacity for appropriate response in difficult situations. Levels of development will be indicated by Well Developed, Developed or Needs Development.

**External Control:** The ability to appear to be rational and in control when facing problems or crises.

- He shows some discipline and organization when reacting to conflict, primarily dealing with problems involving systems and theories.
- His capacity to organize and discipline his reactions when confronted with outside problems is developed.
- He shows some discipline and organization when reacting to conflict, primarily dealing with problems involving other people.
- He shows some discipline and organization when reacting to conflict, primarily dealing with problems involving practical situations.

**Internal Control:** The ability to remain in conscious command of one's internal self when confronted with difficult circumstances and to respond rationally.

- He shows some discipline and organization when reacting to conflict, primarily dealing with problems involving self-discipline.
- His capacity to organize and discipline his reactions when confronted with problems within himself is developed.
- He shows some discipline and organization when reacting to conflict, primarily dealing with problems involving his own individuality.
- He shows some discipline and organization when reacting to conflict, primarily dealing with problems involving his roles in life.

\* 68% of the population falls within the shaded area.

# Business Performance Summary

The business performance summary will identify Mitch's capacity to solve problems and concentrate during challenging times and ability to make balanced decisions. Levels of development will be indicated through a numerical score for Balanced Decision Making and External and Internal Control as well as by Well Developed, Developed and Needs Development for the Attitude Index.

**Balanced Decision Making** - The ability to make consistently sound and timely decisions in one's personal and professional life.

**External Concentration Index** - The ability to concentrate with a sense of proportion in external situations.

**Internal Concentration Index** - The ability to concentrate with a sense of proportion in internal situations.

**Attitude Index:** Attitude Index shows the positive or negative attitude of the person toward the world and is a result of over or under-valuing the statements in the questionnaire.

## Introduction Competencies Section

Your success in any job depends on the value of your contribution to the organization. Managers, mentors and professional coaches can encourage, advise and guide you as you grow professionally. However, the ultimate responsibility for your career development is yours and yours alone.

This report is designed to assist you in managing and developing your career. For many jobs, personal skills are as important as technical skills in producing superior performance. Personal skills are often transferable to different jobs, whereas technical skills are usually more specific.

**Your development of these personal skills are categorized into four levels:**

- 1) Well Developed
- 2) Developed
- 3) Moderately Developed
- 4) Needs Development

While personal skills are certainly important for career development, it is not necessary to fully develop every one. In fact, development of a personal skill may not benefit your career if it isn't required in your current job. In order to optimize your career potential, it is best to focus your development efforts on the personal skills that are required in your current job, or the job you want.

Be sure to read the entire report with an open mind. Everyone has areas where they can improve. Before deciding to work on developing personal skills you have not yet fully developed, you may want to discuss the report with a trusted peer, mentor or professional coach. You may even wish to share the report with your manager. In most cases, management takes a very positive view of individuals who wish to develop their skills.

# Development Indicator

*This section of your report shows your development level of 25 personal skills based on your responses to the questionnaire. The 25 personal skills have been categorized into four levels; based on means and standard deviations. Well Developed, Developed, Moderately Developed and Needs Development.*

# Getting the Most From Your Report

Questions about the personal skills you are well developed in:

- Are you using the personal skills you are well developed in more in your personal or professional life?
- How is your development of these personal skills contributing to your success?
- How can you use these personal skills to advance your career, get a promotion or secure a better job?
- Do other people know that you are well developed in these personal skills?
- If not, what would be the benefit of sharing this information with them?

Questions about the personal skills in which you are developed and moderately developed:

- How has not fully developing these personal skills hindered your ability to succeed personally or professionally?
- Which of these personal skills might help you the most personally, if you developed them more thoroughly?
- Which of these personal skills might help you the most professionally, if you developed them more thoroughly?

Questions about the personal skills you have not yet developed:

- Which of these personal skills might help you the most personally, if you developed them?
- Which of these personal skills might help you the most professionally, if you developed them?
